Nevarno

Most natural waters range from pH 4 to pH 9, but commonly are above pH 7 because of carbonates and bicarbonates (alkalinity). The pH of water used in industry, boiler feed water, and swimming pools usually is kept within a narrow range. Simply add indicator to the sample and compare the color to the spots on the color disc to measure pH.

A wide range kit applicable to a viariety of samples

A great option for fast, reliable readings

Specifikacije

Ime metode:	Color disc/ Wide range indicator
Merilno območje:	4 - 10 pH
Model:	17N
Parameter:	pH
Platforma:	Color Disc
Smallest increment:	0.5 pH
Standardno merilno območje:	4 - 10 pH
Število testov:	300
Test Kit model:	17N
Vrsta primera:	B
