

## Ferric chloride solution for BOD, 1 L

Številka izdelka: 42953  
EUR Cena: Kontakt  
Datum pošiljanja ni prikazan

Dilution water component for Biochemical Oxygen Demand determination, APHA formulation

---

### Specifikacije

|                                |                            |
|--------------------------------|----------------------------|
| Aplikacija:                    | Dilution water preparation |
| Formula:                       | FeCl <sub>3</sub>          |
| Opis:                          | Conventional method        |
| Package settings:              | Bottle                     |
| Platforma:                     | Raztopina                  |
| Prostornina / velikost paketa: | 1 L                        |
